

Pressure balance element

DAE M12

DAE M12

Pressure balance element

Productnumber: 26241201

Dimensions: 18,5 x 17,6 x 18,5 mm

Pressure compensation device with air-permeable and waterproof special membrane foil to prevent condensation in enclosures, flow rate 0.8l/min. at 0.1 bar overpressure, polyamide, grey

M12 x 1.5 mm, Thread length 10 mm

Technical Data

Dimensions

Width:	18.5 mm
Length:	17.6 mm
Height:	18.5 mm

Material characteristics

Halogen free:	yes
Industry quality:	no

mechanical properties

Type of accessory:	other
--------------------	-------

Ambient conditions

Installation location:	unprotected outdoor areas
------------------------	---------------------------
